Note: If you're looking for a primary care doctor, select "Able to Serve As Primary Physician" (PCP). To find your doctor's provider and medical group/IPA number (needed when you enroll in the HMO plan for the first time), select the doctor's name.

If you are selecting a new primary care doctor, make sure that the doctor you choose is accepting new patients. It's always best to phone the doctor's office and ask about becoming a new patient. Once you have chosen a new primary care doctor, you'll need to transfer your medical records from your previous doctor to your new primary care doctor. Your new primary care doctor can provide the proper form for you to complete and sign. This form will need to be mailed to your previous doctor, who will then send copies of your medical records to your new primary care doctor
