

Report of Medical Examination for School Entry

Dear Parent or Guardian:

California State Law (AB2068) has established the Child Health and Disability Program (CHDP). The intent of this program is to prevent, diagnose, and correct many health problems found in children and young people.

The law requires that parents present their school district with a completed *Report of Medical Examination for School Entry* form before their child enters the first grade, however, Del Mar Union School District asks that the examination be completed before your child begins kindergarten. A copy of the examination form is attached for your use. All parents should note that if they do not wish to have their child examined, they may sign the *Waiver of Medical Examination* located on the bottom portion of the form. However, we recommend that all children be examined. The screening may be completed by your personal physician or at the Health Department for a nominal fee.

Parents who feel that they may be eligible for a CHDP reimbursed health check-up service are asked to call the nurse who serves their child's school site.

Hearing and vision tests will be completed by the school nurse.

Please assist us in complying with CHDP requirements by completing the attached *Report of Medical Examination for School Entry* form and returning it to your child's school as soon as possible.

Sincerely,

Jennifer Huh
Director of Student Services

School Entry Health Checkup Requirement

Early and regular **health checkups** can find, prevent, and treat many health problems before they become serious. That is why California has a **law** that says all children **must** have a health checkup within **18 months before first grade or up to 90 days after starting first grade**. Your child must also have certain immunizations, or shots, for school. Your doctor will be able to check your child's immunization record and see what shots are needed during the health checkup. Your doctor will complete this form and you need to return to your child's school.

If you are not able to pay for this checkup, please call Maternal Child and Family Health services to find out if your child is eligible for a health checkup at no cost and for ongoing medical and dental insurance.
