Q: Can tell me how many total cases you used in Broadline this year?

A: The district is changing methodology for Child Nutrition Services procurement of food items. There is no former usage that can be provided. The district previously utilized vended services which is different from a direct purchase of cases of food items/components. Additional information for establishing estimated usage can be found on page 41 of the RFP document, "RFP 2223-08 BID FORM SPECIFICATIONS"
