

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Del Mar Union School District

CDS Code: 37 68056 0000000

School Year: 2023 - 24

LEA contact information: Holly McClurg, Ph.D., Superintendent

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023 - 24 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Del Mar Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Del Mar Union School District is \$74,042,879.00, of which \$62,151,962.00 is Local Control Funding Formula (LCFF), \$6,404,479.00 is other state funds, \$4,485,379.00 is local funds, and \$1,001,059.00 is federal funds. Of the \$62,151,962.00 in LCFF Funds, \$1,001,059.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Del Mar Union School District plans to spend for 2023 - 24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Del Mar Union School District plans to spend \$73,942,880.00 for the 2023 - 24 school year. Of that amount, \$3,046,000.00 is tied to actions/services in the LCAP and \$70,896,880.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

[Respond to prompt here]

Increased or Improved Services for High Needs Students in the LCAP for the 2023 - 24 School Year

In 2023 - 24, Del Mar Union School District is projecting it will receive \$1,001,059.00 based on the enrollment of foster youth, English learner, and low-income students. Del Mar Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Del Mar Union School District plans to spend \$1,807,000.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022 - 23

This chart compares what Del Mar Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Del Mar Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022 - 23, Del Mar Union School District's LCAP budgeted \$1,757,000.00 for planned actions to increase or improve services for high needs students. Del Mar Union School District actually spent \$1,707,000.00 for actions to increase or improve services for high needs students in 2022 - 23. The difference between the budgeted and actual expenditures of \$50,000.00 had the following impact on Del Mar Union School District's ability to increase or improve services for high needs students:

Plan Summary [2023-24]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The Del Mar Union School District is a K-6 elementary school district serving the city of Del Mar and a portion of the Carmel Valley area, located in northern San Diego City. Approximately 3800 students attend nine schools in the district. The demographic breakdown is as follows: English Learners 13.3%, Socioeconomically Disadvantaged 8%, and Foster Youth and homeless youth less than 1%. The district is ethnically diverse, with 39 languages spoken by our families; Asian 36.6%, African American 1.1%, Filipino, 1.3%, Hispanic 11.%, Two or More Races, 6.6%, and White 42.3%.

DMUSD is a district of thinking, inspiration, and impact. Our students experience a high-quality instructional core defined by strong academics and superb instructional practice. We chart the course through high standards, top-performing staff, and meaningful learning experiences. Engaging, flexible learning environments are alive with critical thinking, real-world applications to solving problems, and curiosity that is encouraged via creativity and innovation. Students in the Del Mar Union School District engage in rigorous academic programs, and student performance is among the highest in the State. We prepare all students to be college-ready, globally competitive, and engaged citizen leaders. It is our mission to ignite genius and empower students.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Academic Performance:

Students in the DMUSD (Del Mar Union School District) continue to demonstrate exceptional academic achievement in both English Language Arts (ELA) and Mathematics. According to the latest data from the California School Dashboard, overall performance in both content areas was at the Very High-performance level. All student groups, including All Students, Asian, English Learners, Two or More Races, and White, achieved the Very High-performance level in ELA. Hispanic students, students from socioeconomically disadvantaged backgrounds, and students with disabilities performed at the High-performance level. In Mathematics, similar success was observed, with All Students, Asian, Two or More Races, White, and English Learners reaching the Very High-performance level. Hispanic students and students with disabilities achieved the High-performance level, while students from socioeconomically disadvantaged backgrounds performed at the Medium performance level.

Based on i-Ready Diagnostic data administered in late January 2023, students in DMUSD are showing continued strong academic progress. With four months of learning remaining, 82% of all students scored at or above grade level in reading, and 77% scored at or above grade level in math when analyzing tiered performance levels. When examining student group performance in reading, Asian students showed the highest scores at 87%, followed by Two or More Races students at 85%, White students at 79%, and English learners at 75%. Hispanic students scored 69%, while students from socioeconomically disadvantaged backgrounds and students with disabilities achieved scores of 58% and 53%, respectively. In math, Asian students achieved the highest score of 89%, followed by Two or More Races students at 81%, White students at 75%, and English learners at 68%. Hispanic students achieved a score of 58%, while students from low socioeconomic backgrounds and students with disabilities scored 56% and 51%, respectively.

English Learner Performance:

Our English learners have made excellent progress in acquiring English language proficiency. 61% of English learners demonstrated progress towards English language proficiency on the 2021-22 Summative ELPAC. As of May 15, 2023, the reclassification rate for English learners was 15.5% (86 students), indicating that a significant number of students have reached the necessary language proficiency level to be considered fluent in English.

Student Social-Emotional Well-Being:

Ensuring the social-emotional well-being of our students is a top priority in each school community of DMUSD. The presence of school counselors on each campus has had a significant positive impact on students' well-being. In collaboration with site administrators and teachers, counselors have supported socio-emotional learning programs tailored to each school site. By nurturing positive relationships and promoting a sense of belonging, counselors have played a crucial role in helping students feel supported and valued within our school community. The District Equity Advisory Committee, along with a Teacher on Special Assignment, has provided professional learning opportunities to support diversity, equity, and inclusion efforts across every school site and department. The ongoing focus on these areas ensures an equitable and inclusive environment for all individuals in DMUSD.

The positive and supportive climate provided to students is reflected in the performance levels of the end-of-year DMUSD CORE Wellness survey, where 96.2% of students in grades 3-6 fell within the healthy range. Furthermore, suspension rates for all students in DMUSD were extremely low, with a rate of 0.4% or at the Very Low-performance level in the 2021-2022 school year. Student group performance was also strong, with Asian, English Learners, Filipino, Homeless, and Two or More Races students achieving the Very Low-performance level, Hispanic, Socioeconomically Disadvantaged, Students with Disabilities, and White students achieving the Low-performance level, and

African American students (a small student group) achieving the Medium-performance level (important to note that only 1 out of 45 students was suspended).

The outstanding academic success of our students can be attributed to a combination of factors. A rigorous academic program, dedicated teachers, the refinement of our MTSS (Multi-Tiered System of Supports) process, and high-caliber professional learning provided to our teachers have played a significant role in achieving and sustaining our students' exceptional academic performance. We remain committed to these foundational elements and will continue to foster a culture of excellence, collaboration, and continuous improvement. Our goal is to ensure that all students in the DMUSD have the opportunity to thrive academically and reach their highest potential.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Chronic absenteeism rates continue to be an area of concern for our students, particularly among some of our most vulnerable populations. The California School Dashboard performance levels indicate that certain student groups have higher rates of chronic absenteeism compared to others. Inconsistent attendance may be a contributing factor to lower achievement levels. For example, students from low socioeconomic backgrounds who have the highest rates of Chronic Absenteeism performed at the medium level in mathematics, where the performance level for All students was Very High.

For Chronic Absenteeism, the performance level for all students was Medium. The performance levels on chronic absenteeism for student groups in the 2022 California School Dashboard reflecting the 2021-22 school year were as follows:

Low: Asian

Medium: Filipino, Two or More Races, English Learners, White

High: African American, Hispanic, Students with disabilities

Very High: Socioeconomically Disadvantaged

Local data specific to our district reveal the following chronic absenteeism rates as of May 15, 2023:

All Students: 10%

Asian: 6%

Black: 28%

Hispanic: 17%

Two or More Races: 9%

White: 10%

Students from Low Socioeconomic Backgrounds: 23%

Students with Disabilities: 17%

English Learners: 9%

Furthermore, the overall attendance rate for the 2022-2023 school year, as of May 15, stands at 90.92%. This represents a 5% decline

compared to the same period last year.

We understand that inconsistent attendance can affect academic achievement, and we are committed to addressing this challenge and providing support for all students. By adopting an asset-based approach, we can tap into the strengths and resources of our students, fostering a supportive and inclusive environment that empowers them to succeed. The following actions address this need:

- Continued Refinement of the MTSS process: Each school will refine site systems and structures to ensure an effective Multi-Tiered System of Support to monitor all students systematically and provide targeted to students demonstrating academic, social-emotional, and/or behavioral needs.
- Each school will engage in a root cause analysis of students experiencing chronic absenteeism and site-specific goals and actions in the School Plan for Student Achievement to support students in improving attendance.
- Site and district administration will provide communication to families about contributions of regular attendance to school success.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The LCAP aligns with the eight state priorities for education through the selection of comprehensive goals addressing high-quality instruction, engagement, and academic success. The goals identified for the 2021-2024 LCAP continue to include successful components of our educational program, such as maintaining small class sizes and sustaining ongoing targeted professional learning.

Building upon the successful components of our educational program, we have refined our goals and actions to strengthen our program further and ensure that the needs of every student are met., including English learners, students whose families are considered low-income, and foster and homeless youth:

- Continue refinement of a Multi-tiered System of Supports (MTSS) to address students' academic and socio-emotional/behavioral needs.
- Increase the number of credentialed teachers hired to support academic intervention.
- Increase the number of school counselors to help address the social-emotional needs of all students and support the development of skills critical for academic achievement (MTSS tier I and II).
- Continuation of professional learning focused on district instructional frameworks, Creating Cultures of Thinking, Essential Elements of Instruction, and Cognitively Guided Instruction via a model ensuring differentiated support and options for teachers.
- The continuation of the co-teaching model to support collaboration between general education teachers and special education teachers to meet the needs of students with disabilities and general education students needing additional support.
- Professional learning to deepen teachers' understanding of how best to support students at the earliest levels of English acquisition
- Continued support for teachers as they implement the Amplify science program. The science resource center continues to assist teachers with managing and storing hands-on materials.

- The continuation of a Diversity, Equity, and Inclusion District Advisory Committee, consisting of parents, teachers, support staff, and site and district administration. This group will continue the work started in the 2021-22 school year through the design and implementation of a multi-year equity Plan. Site teams continue to build capacity at schools and incorporate the community into the learning.
- Expanding SELweb survey to include grades 3-6 to provide continuity across all grade levels.

We have identified additional measures to enhance our program further:

- Adopt a new History-Social Science program and begin implementation in the 2023-2024 school year
- Implementation of strategies to decrease Chronic Absenteeism
- Revise, translate, and disseminate the Family Support Handbook for Parents of English learners
- Resume English as a Second Language classes for adults

By implementing these actions and focusing on continuous improvement, we are dedicated to providing a comprehensive and inclusive educational experience that meets the needs of all our students, ensuring their academic success and overall well-being.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

No schools in the Del Mar Union School District are eligible for comprehensive support and improvement

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

No schools in the Del Mar Union School District are eligible for comprehensive support and improvement

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

No schools in the Del Mar Union School District are eligible for comprehensive support and improvement

Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

The superintendent, district office administration, and school site principals meet with community members throughout the year to share district and school site information related to the LCAP. Agendas reflect a broad range of topics, including the development of the Local Control and Accountability Plan (LCAP), Local Control Funding Formula (LCFF), budget information, implementation of California Standards, the instructional program focused on teaching and learning, facilities, and districtwide and site-specific data related to student progress. Involvement from students occurs through multiple classroom visitations, observation of student work, collection of anecdotal data, and focus groups with principals. Parent input and involvement in the development and annual review of districtwide and site-based objectives occurs via participation in scheduled parent meetings and surveys at the site and district levels. Participation of all parents is solicited, including parents of second language learners, students receiving Special Education, families whose children receive free or reduced lunch, and families of foster youth. Event flyers for families of second language learners and immigrant families are mailed home in several different languages.

Efforts to gather input from all educational partners to inform the development of the 2023-24 LCAP have occurred throughout the year:

Established Advisory Committees:

Educational partners engage in meaningful dialogue and provide input on the LCAP through formal groups such as the School Board, Parent Teacher Association (PTA), Presidents' Advisory Council, English Language Advisory Committee (ELAC), District English Language Advisory Committee (DELAC), School Site Council (SSC), Del Mar California Teachers Association (DMCTA), Classified Advisory Committee, District Wellness Advisory Committee, District Equity Advisory Committee, District Leadership Group, and District Cabinet.

District Leadership Meetings and Committees:

- Parent-Teacher Association Presidents' Advisory Committee (PAC) 5/2
- School Board 5/24, 6/21 (Pending)
- District English Language Advisory Committee 5/2, 5/26
- Del Mar Certificated Teachers Association (DMCTA) Included in site-specific focus groups and LCAP presentation sessions led by principals
- District Cabinet – Numerous sessions throughout the school year
- Special Education Local Plan Area Administrators (SELPA) 4/18, 1/29 (Held jointly with Instructional Services)
- District Leadership Group 2/8, 3/8, 3/22, 4/12, 5/10 (Proposed LCAP Actions)
- Principal Meetings 4/26

Focus Group Sessions:

District leadership facilitated staff focus groups held at each site and with each department

School site Teachers: 11/8: Sage Canyon and Torrey Hills, 11/29: Ashley Falls, Carmel Del Mar, Del Mar Heights, December 13: Pacific Sky, Ocean Air, and Del Mar Hills

10/26: Maintenance and Operations and Technology Department
10/26 Early Childhood Development Center
11/4: After-School Programs
11/17: Student Support Staff
11/17: District Office
11/30: Administrative Assistants and Office Assistants
11/31: Nurses and Health Technicians
1/18: Custodial Staff

District leadership facilitated focus group sessions with each school PTA executive board, SSC, and ELAC:

Ashley Falls 11/17
Carmel Del Mar 12/9, 2/13
Del Mar Heights 2/9
Del Mar Hills 2/10
Ocean Air 12/8, 1/26
Pacific Sky 2/9
Sage Canyon 12/16, 1/26
Sycamore Ridge 11/10, 1/26

Strategic Planning Meetings

Portrait Design Team Meetings: 2/28, 3/1, 3/8, 3/27

Strategic Design Team Meeting 1: 4/24, 4/25, 5/25

School Site Level Sessions:

Principals provided LCAP presentations to staff and community members:

- Staff Meeting - all school sites 4/12 or 4/20
- Site-based community meetings: Ashley Falls 5/9, 5/16 Carmel Del Mar 5/3, 5/12, 5/15, 5/17, Del Mar Heights 5/8, 5/9, Del Mar Hills 5/4, 5/12, 5/25, 5/23, Ocean Air 5/3, 5/11, 5/18, Sage Canyon Sycamore Ridge 5/3, 5/11, 5/16, 5/17 Torrey Hills 5/9, 5/9, 5/16
- Principals' focus groups with students held in January and February 2023

Outreach via Technology:

Technology is used to communicate information and request feedback and prioritization for program needs from the Del Mar School District Community at large. A survey for parents, staff, and community members was posted on district and site websites from April 21 until April 28. Requests for participation in the online survey were sought through email communication as well as districtwide 'all-calls.' Just under 500 educational partners, including staff (25%), parents (75%), and community members (1%) representing all schools and programs, responded to the survey and provided over 830 written comments. Of the respondents, 23% were parents of students learning English, 15% were parents of students receiving special education services, and 18% were parents of children participating in the free or reduced lunch program.

Once proposed actions had been identified and presented to staff and to parent committees and also at a public hearing held during the May Board meeting, participants are invited to provide written feedback via a Google Survey for which there were over ____ submissions. This feedback was used to inform the final draft of the LCAP.

Public Hearing: 5/24

Board Approval: 6/21 (Pending)

A summary of the feedback provided by specific educational partners.

An analysis of educational partner feedback was conducted, both for overall trends and also for trends amongst groups as follows: Parents, staff, parents of students receiving special education, parents whose children participate in the free and reduced lunch program, and parents of students identified as English learners.

While there was some variation in specific priorities, overall trends in the feedback were as follows:

- Continued support for maintaining small class sizes
- A desire to continue high-quality professional learning in order to equip teachers with the skills necessary to meet the needs of diverse learners
- A strong desire to support student's social-emotional and behavioral development
- The priority for providing rigorous learning opportunities that develop critical thinking skills
- A desire for the district to continue the examination of systems and structures for high-quality STEAM+ learning in order to refine program delivery
- Many requests for expanding the number of counselors to ensure students receive appropriate mental health support at all school sites
- A desire to continue addressing diversity, equity, and inclusion efforts
- A need to increase staff focused on academic intervention

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Educational partner input is reflected through the 2021-2024 LCAP. Specific actions identified for inclusion in the plan related to educational partner input are as follows:

- Goals 1.3 and 1.4: Continued professional learning provided for Cognitively Guided Instruction, Creating Cultures of Thinking, and Essential Elements of Instruction
- Goal 1.5: Examination of STEAM+ learning structures
- Goal 1.6: Maintaining low-class sizes
- Goal 1.8 Increasing academic support staff focused on providing intervention in reading and math

- Goal 1.10 and 2.4: Refining Multi-Tiered Systems of Support (MTSS) to monitor all students systematically and provide targeted intervention to students demonstrating academic, social-emotional, and/or behavioral needs
- Goal 2.1: Continuation of a district-wide Diversity, Equity, and Inclusion Advisory team and site-based teams that will provide professional learning to staff and then community members
- Goal 2.2: Increasing mental health staff to provide consultation to teachers as they provide tier 1 social-emotional learning for students and provide tier 2 and 3 intervention for students needing increased levels of support

Goals and Actions

Goal

Goal #	Description
1	Students will experience high-quality standards-based learning applied to real-world contexts using multi-modal methods to create, communicate, and think critically. Students' experiences will build upon their passions, interests, and strengths.

An explanation of why the LEA has developed this goal.

This broad goal was selected to encompass state priorities focused on the instructional program and academic progress (priorities 1, 2, 4, 7, and 8) and our local strategic plan, District Design 2022. A primary lever for our district is to provide a strong academic core and high-quality instruction to all students. "The academic core is the foundation on which the school experience develops. It grounds our work and ensures students develop essential skills and competencies. High-quality instruction identifies the research-based instructional elements that connect teacher actions with student performance." This goal was selected following an analysis of state and local data and further informed through a comprehensive analysis of educational partner feedback. All student groups perform at exceptional levels when compared to state averages and national norms. However, an opportunity gap exists between some student groups (English learners, Socioeconomically disadvantaged, Special Education) compared to all students. Educational partner feedback from staff and parents confirms a need to support students and teachers in closing this gap. In addition, educational partner feedback indicates a need to ensure instructional strategies are in place to support the unique needs of all students, including those who exceed the grade-level standard.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Rate of compliance with teacher credential and assignment requirements - School Accountability Report Card (SARC)	100% compliance with teacher credential and assignment requirements - 2020-21	98% compliance with teacher credential and assignment requirements - 2021-22	Will complete when data is released		100% compliance with teacher credential and assignment requirements

1.1	Appropriately Credentialed and Assigned Staff	Instructional Services staff, Human Resources staff, and other district staff responsible for CALPADS data entry will work collaboratively to refine the process of monitoring teacher credentialing and	\$0.00	No

Action #	Title	Description	Total Funds	Contributing
		assignments to ensure alignment with the newly developed California State Assignment Accountability System (CalSAAS).		
1.2	Implementation of State Academic Standards - Science	<p>This will be the third year of a multi-year implementation plan for Amplify Science. The plan outlines specific actions to support teachers in using these new materials. Members of the Amplify Science Advisory team and grade-level teacher leaders will continue to develop and revise unit pacing guides and program resources shared within our DMUSD Amplify Hub to support teachers with instructional planning.</p> <p>An Amplify Science Advisory Committee will meet four times during the year. This committee includes classroom teachers, STEAM+ science teachers, and two principals. The purpose of committee meetings is to deepen members' understanding of meaningful learning opportunities in the context of science instruction and identify what additional support teachers and students need for program implementation.</p> <p>A science resource center will be maintained. This center allows science curriculum kits to be centrally stored, distributed, and replenished. Centrally locating materials allows for replenishment to be cost-effective and supports teachers with storing and organizing materials.</p>	\$45,000.00	No
1.3	Implementation of State Academic Standards: Mathematics	Mathematics content specialists who are on special assignments will continue to provide teachers with high-quality professional learning to ensure they are equipped with the skills necessary to meet the needs of diverse learners. This includes strategies to support unduplicated students, including English learners and socioeconomically disadvantaged students, to ensure they have access to content and make expected progress toward meeting grade-level standards.	\$142,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Professional learning in Cognitively Guided Instruction (CGI) is differentiated for teachers based on their years of prior training in the grade-level span to which they are assigned. Teachers new to our district or their grade level span receive multiple days of training in years one, two, and three. Site administrators also attend CGI training. Training is ongoing for every teacher in the district, depending on need and years of experience.</p> <p>Additional optional sessions will be offered for teachers who would like more support in specific topic areas.</p> <p>The mathematics content specialist will provide professional learning to a cohort of teacher leaders to build school site capacity and broad-based leadership for CGI. Design and implementation of the professional learning model will sure differentiated support and options for teachers</p>		
1.4	Instructional Frameworks	<p>Creating Cultures of Thinking The district will continue to work with Harvard researcher Ron Ritchhart to build each teacher's capacity to provide instruction through building a culture of thinking in their classroom. Teachers will learn instructional strategies that help students engage metacognitively, demonstrate agency, and deepen critical thinking skills. He will also continue to build the capacity of our leadership team, including principals, via professional learning.</p> <p>Essential Elements of Instruction The district will expand and refine support for teachers and administrators in the Essential Elements of Instruction. Teachers who are new to the district or have not previously attended EEI training will engage in professional learning, according to need, to learn how to intentionally employ instructional practices which increase the rate at which students experience academic success. Administrators new to the district will engage in professional learning in the Elements to increase their understanding of providing feedback to teachers to</p>	\$120,000.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>increase overall instructional effectiveness. Teachers will receive strategic feedback from site administration through the formal observation process.</p> <p>Embedded into the professional learning for both frameworks are effective strategies for unduplicated students, including English learners and socioeconomically disadvantaged students, to ensure they develop their critical thinking skills and are supported in meeting the high academic expectations of the district.</p> <p>Design and implementation of the professional learning model will sure differentiated support and options for teachers</p>		
1.5	STEAM+ Learning Structure	A STEAM+ learning structure promoting student choice and differentiated opportunities based on grade will be developed and implemented.	\$0.00	No
1.6	Class Size	<p>Maintain low-class size to support teachers as they provide differentiated, targeted support to students, including English learners, students from families with low income, children whose families are homeless, and children in foster care.</p> <p>Maintain class size at K-3: 22:1</p> <p>District intent is to staff in grades 4-6: 25:1</p>	\$1,434,000.00	Yes
1.7	Co-Teaching	Professional learning and coaching will be provided to identified staff to expand co-teaching teams. The co-teaching model will facilitate increased collaboration between general education teachers and special education teachers as they meet the needs of students with disabilities and general education students, including unduplicated students such as English learners and socioeconomically disadvantaged students who require additional support.	\$150,000.00	No

Action #	Title	Description	Total Funds	Contributing
1.8	Academic Support	Maintain three credentialed teachers to provide intervention and coaching to accelerate progress and close learning gaps for students who are below grade level in language arts or mathematics. Maintain hourly teachers at each school site to support reading intervention, Identified students include unduplicated students such as English learners and socioeconomically disadvantaged students.	\$301,000.00	No
1.9	English Language Development	Provide professional learning to deepen teachers' understanding of best practices for supporting students at the earliest levels of English language acquisition and are recent arrivals to the United States.	\$0.00	No
1.10	Multi-Tiered Systems Of Support (MTSS) - Academic	Each school will continue to refine site systems and structures to ensure an effective Multi-Tiered System of Support to systematically monitor all students, including English learners, students from low-income families, and foster and homeless youth. Students demonstrating academic, social-emotional, and/or behavioral needs will be provided targeted intervention.	\$12,000.00	Yes
1.11	i-Ready Assessment and Reading Learning Pathway	Continue to implement the i-Ready diagnostic as a local assessment and receive professional learning to use the results for the ongoing screening and progress monitoring of all students, including unduplicated students, in order to inform differentiated support based on identified needs. The i-Ready Reading Learning Pathway provides remediation and extension lessons based on student performance levels on the Diagnostic and can be further customized by the teacher.	\$80,000.00	No
1.12	Supplemental Intervention for English learners	Provide Imagine Learning and Literacy to all Level 1 and 2 English learners as a supplemental intervention tool to provide differentiated assistance with gaining English language proficiency.	\$40,000.00	No

Action #	Title	Description	Total Funds	Contributing
1.13	Implementation of State Academic Standards History-Social Science	A new history-social science curriculum will be recommended for Board approval in preparation for the 2023-2024 school year. A team of K-6 teachers will assist with curating grade-level resources to support implementation.	\$750,000.00	

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

2022-23 Actions and Services for Goal One were implemented as planned.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

All planned actions were carried out and implemented substantially in the way they were intended in the 2022-23 school year. There is not material difference between Budgeted Expenditures and Estimated Actual Expenditure, all expenditures projected original budget were implemented during the school year.

An explanation of how effective the specific actions were in making progress toward the goal.

Academic progress

The following actions were identified for the 2022-2023 LCAP to support students in meeting their academic potential:

Maintaining low class sizes (22:1, K-3 and 25:1 4-6)

Hiring staff to provide academic support to students below grade level in mathematics and English language arts

Implementing the i-Ready Diagnostic as a screening and progress monitoring tool

Purchasing the iReady Reading Learning Pathway adaptive supplemental instructional tool

Examination and refinement of MTSS processes

Implementation of a co-teaching model

Providing high-quality professional learning in district instructional frameworks

Collectively these actions contribute to a successful educational system where students demonstrate exceptional academic achievement in both English Language Arts (ELA) and Mathematics. According to the latest data from the California School Dashboard, overall performance

in both content areas was at the Very High-performance level. All student groups, including All Students, Asian, English Learners, Two or More Races, and White, achieved the Very High-performance level in ELA. Hispanic students, students from socioeconomically disadvantaged backgrounds, and students with disabilities performed at the High-performance level. In Mathematics, similar success was observed, with All Students, Asian, Two or More Races, White, and English Learners reaching the Very High-performance level. Hispanic students and students with disabilities achieved the High-performance level, while students from socioeconomically disadvantaged backgrounds performed at the Medium performance level.

Based on i-Ready Diagnostic data administered in late January 2023, students in DMUSD are showing continued strong academic progress. With four months of learning remaining, 82% of all students scored at or above grade level in reading, and 77% scored at or above grade level in math when analyzing tiered performance levels. When examining student group performance in reading, Asian students showed the highest scores at 87%, followed by Two or More Races students at 85%, White students at 79%, and English learners at 75%. Hispanic students scored 69%, while students from socioeconomically disadvantaged backgrounds and students with disabilities achieved scores of 58% and 53%, respectively. In math, Asian students achieved the highest score of 89%, followed by Two or More Races students at 81%, White students at 75%, and English learners at 68%. Hispanic students achieved a score of 58%, while students from low socioeconomic backgrounds and students with disabilities scored 56% and 51%, respectively.

Our English learners have made excellent progress in acquiring English language proficiency. 61% of English learners demonstrated progress towards English language proficiency on the 2021-22 Summative ELPAC. As of May 15, 2023, the reclassification rate for English learners was 15.5% (86 students), indicating that a significant number of students have reached the necessary language proficiency level to be considered fluent in English.

Implementation of Science Standards

This was the second year of a multi-year implementation plan for Amplify Science. The plan outlines specific actions to support teachers in using these new materials. Members of the Amplify Science Advisory team and grade-level teacher leaders have developed and revised unit pacing guides and program resources shared within our DMUSD Amplify Hub to support teachers with instructional planning. An Amplify Science Advisory Committee includes classroom teachers, STEAM+ science teachers, and two principals. The purpose of committee meetings is to deepen members' understanding of meaningful learning opportunities in the context of science instruction and identify what additional support teachers and students need for program implementation. A science resource center has been established and allows science curriculum kits to be centrally stored, distributed, and replenished. Centrally locating materials allows for replenishment to be cost-effective and supports teachers with storing and organizing materials. Providing professional learning and support to teachers as they successfully implement Amplify science was reflected in the 2022 CAST achievement levels, where 71.59% of our students performed at the met or exceeded levels.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

All student groups perform at exceptional levels compared to state averages and national norms. However, an opportunity gap continues to exist between some student groups (English learners, Socioeconomically disadvantaged, Special Education) compared to all students. In an effort to close this gap, staff providing intervention in reading and math is being increased. In addition, the district will continue to maintain smaller class sizes in grades 4-6 for the 2023-2024 school year. Professional learning will be provided with the goal of deepening teachers' understanding of best practices for supporting students at the earliest levels of English language acquisition.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal #	Description
2	Students will demonstrate compassion and empathy by engaging with a sense of purpose in a collaborative school community that embraces diversity and promotes meaningful relationships.

An explanation of why the LEA has developed this goal.

This broad goal was selected to encompass state priorities focused on the culture and climate of our schools, including student and parent engagement (priorities 3, 5, and 6) and also our local strategic plan, District Design 2022. A primary lever for our district is to ensure students develop "the skills that matter most". Two of the five-year objectives related to this lever include the following:

- Students are engaged citizens who connect with contemporary and historical issues, virtually and in real time, with people in their local community and throughout the world to understand other cultures and opinions.
- Students demonstrate compassion and empathy by engaging with a sense of purpose in a collaborative school community that embraces diversity and promotes meaningful relationships.

This goal was selected following an analysis of data around student climate and well-being and was further informed through comprehensive educational partner feedback. Each school provides a highly engaging collaborative environment for all students. Educational Partner Feedback indicated a need to ensure the socioemotional well-being of all students is addressed through learning opportunities and differentiated support based on student needs. In addition, there is a need to examine district systems and school cultures to ensure equity.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
The Pupil Suspension Indicator on the California School Dashboard	<p>Suspension data for the 2019-20 school year was published on the Dataquest website and was used to determine the following analysis.</p> <p>There was an unduplicated count of</p>	<p>There was an unduplicated count of 16 students suspended district-wide in the 21-22 school year (as of 4-26). Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Multi-Tiered Systems of Support (MTSS) Social-Emotional/Behavior	Each school will continue to refine site systems and structures to ensure an effective Multi-Tiered System of Support to systematically monitor all students, including English learners, students from low-income families, and foster and homeless youth. Students demonstrating academic, social-emotional, and/or behavioral needs will be provided targeted intervention. Expenditures included in Goal 1, Action 10 above.	\$0.00	Yes
2.2	Second Step - Social Emotional Learning Curriculum	Continue to monitor and refine the implementation of Second Step in each classroom, including purposeful integration of Second Step	\$10,000.00	No

Action #	Title	Description	Total Funds	Contributing
		strategies, No Place for Hate activities, and the work of site diversity, equity, and inclusion teams.		
2.3	Student Wellness Survey	Continue to administer a wellness survey for K-2 students. Transition grades 3-6 to the same wellness survey to provide continuity across all grade levels. Use the results to identify and address areas of need at each school site.	\$13,000.00	No
2.4	School Counselors	Expand the number of school counselors to address the social-emotional needs of all students, including unduplicated students (MTSS, Tier I/II) Maintain a licensed mental health clinician to provide support for students with intensive mental health needs (MTSS, Tier III), Educationally Related Mental Health Services (ERMHS), and a suicide prevention program	\$677,000.00	Yes
2.5	Diversity, Equity, and Inclusion	The District Equity Advisory Committee, consisting of parents, teachers, support staff, as well as site and district administration, will continue to design and implement a multi-year Equity Plan. Site teams will lead in building school capacity and continue to incorporate the community into the learning. The purpose of both teams is to: a) help raise the consciousness about general topics and issues of equity b) build capacity throughout the district to begin leading equity professional learning at every site, within every department, and with the parent community c) building systems and school cultures that ensure educational equity for all students, including unduplicated students, are well supported in their socioemotional well-being and in their academic success.	\$80,000.00	No

Action #	Title	Description	Total Funds	Contributing
		d) Maintain a 50% TOSA to support school sites and departments with professional learning and the development of a sequence of learning for the parent community. The TOSA will assist with facilitating diversity, equity, and inclusion learning for staff in departments throughout the district to help ensure an equitable and inclusive environment for all individuals in DMUSD.		
2.6	Parent Education	<p>Develop and provide a parent education series to provide parents with tools to support their children's social-emotional wellness.</p> <p>Expenditures included in Goal 2, Action 2 above.</p>	\$0.00	No
2.7	Reduce Chronic Absenteeism	<p>Strategies will be implemented to reduce the number of students demonstrating chronic absenteeism.</p> <p>a)Each school will engage in a root cause analysis of students experiencing chronic absenteeism and establish site-specific goals in the School Plan for Student Achievement to support students in improving attendance.</p> <p>b)Site and district administration will provide communication to families about contributions of regular attendance to school success.</p>	\$0.00	
2.8	Parent Support	<p>Provide support to parents who desire greater understanding of the US School System.</p> <ul style="list-style-type: none"> • Revise, translate, and disseminate the handbook Family Support Handbook for parents of English learners. • Resume offering English as a Second Language classes for adults on school campuses. • Seek out most effective strategies to support families from multiple countries who reside within our school district. 	\$45,000.00

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

2022-2023 Actions and Services for Goal One were implemented as planned.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

All planned actions were carried out and implemented substantially in the way they were intended in the 2022-23 school year. There is not material difference between Budgeted Expenditures and Estimated Actual Expenditure, all expenditures projected original budget were implemented during the school year.

An explanation of how effective the specific actions were in making progress toward the goal.

Student Social-Emotional Well-Being:

Ensuring the social-emotional well-being of our students is a top priority in each school community of DMUSD. The presence of school counselors on each campus has had a significant positive impact on students' well-being. In collaboration with site administrators and teachers, counselors have supported socio-emotional learning programs tailored to each school site. By nurturing positive relationships and promoting a sense of belonging, counselors have played a crucial role in helping students feel supported and valued within our school community. The District Equity Advisory Committee, along with a Teacher on Special Assignment, has provided professional learning opportunities to support diversity, equity, and inclusion efforts across every school site and department. The ongoing focus on these areas ensures an equitable and inclusive environment for all individuals in DMUSD.

The positive and supportive climate provided to students is reflected in the performance levels of the end-of-year DMUSD CORE Wellness survey, where 96.2% of students in grades 3-6 fell within the healthy range. Furthermore, suspension rates for all students in DMUSD were extremely low, with a rate of 0.4% or at the Very Low-performance level in the 2021-2022 school year. Student group performance was also strong, with Asian, English Learners, Filipino, Homeless, and Two or More Races students achieving the Very Low-performance level, Hispanic, Socioeconomically Disadvantaged, Students with Disabilities, and White students achieving the Low-performance level, and African American students (a small student group) achieving the Medium-performance level (important to note that only 1 out of 45 students was suspended).

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The district will expand the number of counselors in the 2023-204 school year. Feedback from both parents and staff members continues to identify our school counselors as important members of our school communities. Increasing the number of counselors will allow for more support and continuity of services at each school site.

An action focused on reducing chronic absenteeism rates has been added. Chronic absenteeism rates continue to be an area of concern for our students, particularly among some of our most vulnerable populations. The California School Dashboard performance levels indicate that certain student groups have higher rates of chronic absenteeism compared to others. Inconsistent attendance may be a contributing factor to lower achievement levels. For example, students from low socioeconomic backgrounds who have the highest rates of Chronic Absenteeism performed at the medium level in mathematics, where the performance level for All students was Very High. Chronic absenteeism can also be a reflection of engagement levels for students who would benefit from academic or social-emotional support.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$1,408,503	\$0.00

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
3.82%	0.00%	\$0.00	3.82%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

The services in the LCAP demonstrate a 3.82% improvement in services for unduplicated students compared to services provided to all pupils in the 2023-24 school year. Using a districtwide expenditure model has proven to be the most effective use of supplemental funds and is reflected in our CAASPP data and district performance measures, including iReady, benchmark exams, and performance tasks. The most recent CAASPP data reflects high academic achievement levels compared to State data for identified student groups. Performance of low-income and English learner pupils is well above the state average in grades 3 through 6:

Percent of low-income students meeting or exceeding standards in ELA: DMUSD 57%, State 35%

Percent of low-income students meeting or exceeding standards in Mathematics: DMUSD 48%, State 21%

Percent of English learners meeting or exceeding standards in ELA: DMUSD 38%, State 12%

Percent of English learners meeting or exceeding standards in Mathematics: DMUSD 54%, State 10%

Percent of Reclassified Fluent English Proficient students meeting or exceeding standards in DMUSD ELA 91%, State 59%

Percent of Reclassified Fluent English Proficient students meeting or exceeding standards in Mathematics DMUSD 89%, State 36%

The actions below are intended to accelerate the progress of our unduplicated students through targeted academic intervention, socio-emotional support, and effective instruction supported by high-quality professional learning.

Districtwide Services

Low income and English learner academic success are due to the district's focus on high-quality instruction and effective supplemental resources by all district instructional staff. Extensive, ongoing district-wide professional learning integrating research-based methodologies specific to English learners and those who struggle academically are provided to all staff.

- Goal 1, Action 3: Cognitively Guided Instruction (CGI), one of the effective instructional methodologies identified in the California Mathematics Framework, is being implemented districtwide. Cognitively Guided Instruction supports a deep conceptual understanding of mathematics by all students, including struggling students and linguistically and culturally diverse students. Attention to culture, language, and students with exceptionalities when teaching and assessing is a focal point of professional learning in CGI for ALL teachers. Teachers are taught to engage in intentional actions that will result in high levels of success for all students. Resources acquired for teachers support culturally and linguistically responsive instruction and equitable instruction providing high expectations and supports for all students.
- Goal 1, Action 4: Professional Learning to support teachers in district instructional frameworks, Creating Cultures of Thinking and Essential Elements of Instruction. Both frameworks provide teachers with the knowledge and skills necessary to meet the needs of unduplicated students, including differentiated instruction, strategies to increase critical thinking, and increased engagement levels.
- Goal 1, Action 6: Class Size - Del Mar maintains average class sizes lower than the State K-6 maximum (Del Mar averages 22:1, District goal is to staff 25:1 for grades 4-6 whenever possible in the 23-24 school year). Maintaining small class sizes allows teachers to provide increased differentiated instruction for unduplicated students.
- Goal 1, Action 10, Goal 2, Action 1: Multi-Tiered Systems of Support (MTSS) - Refining MTSS at each school site through the examination and refinement of site systems and structures will ensure systematic monitoring of unduplicated students to provide targeted intervention based on each student's academic and socio-economic/behavioral needs.
- Goal 2, Action 4: Increasing the number of School Counselors - Due to their limited access to social-emotional and mental health services, students from low-income families, foster, and homeless youth are at greater risk of trauma and may require coordinated mental health assistance, family outreach, and referrals to district and community resources. Responses from the spring 2023 stakeholder survey indicate parents whose families are low-income prioritized actions to support their children's social-emotional and behavioral development and provide appropriate mental health interventions.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The services in the LCAP demonstrate a 3.82% improvement in services for unduplicated students compared to services provided to all pupils in the 2022-23 school year. Using a districtwide expenditure model has proven to be the most effective use of supplemental funds and is reflected in our CAASPP data and district performance measures, including iReady, benchmark exams, and performance tasks. The following actions meet the needs of unduplicated students, including English learners, low-income students, and homeless and foster youth.

Strategies to Address the needs of English learners

Cognitively Guided Instruction (CGI), one of the effective instructional methodologies identified in the California Mathematics Framework, is being implemented districtwide. Cognitively Guided Instruction supports a deep conceptual understanding of mathematics by all students, including linguistically and culturally diverse students. Teachers are taught to engage in intentional actions that will result in high levels of success for all students. Attention to culture and language when teaching and monitoring student learning is a focal point of professional learning in CGI for ALL teachers. The use of representational models and tools for problem-solving provides an access point to grade-level mathematics content and support for participating in mathematics discussion while acquiring the academic vocabulary of the content area.

Del Mar maintains average class sizes lower than the State K-6 maximum. Maintaining small class sizes allows teachers to provide targeted language instruction to students in small groups to accelerate their language acquisition and implement the strategies necessary for providing access to core instruction.

Strategies to address the needs of students whose families are socioeconomically disadvantaged, homeless, or who are in foster care
Creating Cultures of Thinking and Essential Elements of Instruction both provide teachers with the knowledge and skills necessary to meet the needs of unduplicated students, including differentiated instruction, strategies to increase critical thinking, and increased engagement levels. Both frameworks focus on strategies necessary for creating a classroom culture that emphasizes the power of a teacher who helps children to meet high expectations through the development of positive relationships and the mindful use of language and empathy. They both prioritize authentic learning experiences where modeling and monitoring are critical teacher moves necessary to advance the learning. Both emphasize the importance of the classroom environment and the use of carefully crafted routines and scaffolds critical for our most vulnerable students, such as students whose families are socioeconomically disadvantaged, homeless, or students who are in foster care.

School counselors in conjunction with teachers will address the socio-emotional needs of students. Due to their limited access to social-emotional and mental health services, students from low-income families, foster, and homeless youth are at greater risk of trauma and may require coordinated mental health assistance, family outreach, and referrals to district and community resources. Responses from the spring 2023 LCAP input survey indicate parents whose families are low-income prioritized actions to support their children's social-emotional and behavioral development and provide appropriate mental health interventions.

Multi-Tiered Systems of Support (MTSS): Refining MTSS at each school site through examining and refining site systems and structures will ensure systematic monitoring of unduplicated students to provide targeted intervention based on each student's academic and socio-economic/behavioral needs.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

DMUSD has less than 55% unduplicated students and so did not receive additional concentrate grant add-on funding.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	1:53	N/A
Staff-to-student ratio of certificated staff providing direct services to students	1:15	N/A

2023-24 Total Expenditures Table

Totals	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds	Total Personnel	Total Non-personnel
Totals	\$1,872,000.00	\$1,847,000.00		\$180,000.00	\$3,899,000.00	\$2,749,000.00	\$1,150,000.00

Goal	Action #	Action Title	Student Group(s)	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds
1	1.1	Appropriately Credentialed and Assigned Staff	All	\$0.00				\$0.00
1	1.2	Implementation of State Academic Standards - Science	All	\$45,000.00				\$45,000.00
1	1.3	Implementation of State Academic Standards: Mathematics	English Learners Foster Youth Low Income	\$142,000.00				\$142,000.00
1	1.4	Instructional Frameworks	English Learners Foster Youth Low Income	\$60,000.00			\$60,000.00	\$120,000.00
1	1.5	STEAM+ Learning Structure	All	\$0.00				\$0.00
1	1.6	Class Size	English Learners Foster Youth Low Income	\$1,434,000.00				\$1,434,000.00
1	1.7	Co-Teaching	All		\$150,000.00			\$150,000.00
1	1.8	Academic Support	All		\$301,000.00			\$301,000.00
1	1.9	English Language Development	English Learners	\$0.00				\$0.00
1	1.10	Multi-Tiered Systems Of Support (MTSS) - Academic	English Learners Foster Youth Low Income	\$12,000.00				\$12,000.00

Goal	Action #	Action Title	Student Group(s)	LCFF Funds	Other State Funds	Local Funds	Federal Funds	Total Funds
1	1.11	i-Ready Assessment and Reading Learning Pathway	All	\$57,000.00			\$23,000.00	\$80,000.00
1	1.12	Supplemental Intervention for English learners	English Learners				\$40,000.00	\$40,000.00
1	1.13	Implementation of State Academic Standards History-Social Science			\$750,000.00			\$750,000.00
2	2.1	Multi-Tiered Systems of Support (MTSS) Social-Emotional/Behavior	English Learners Foster Youth Low Income	\$0.00				\$0.00

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.
- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

Consistently low-performing student group(s) criteria: An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA's eligibility for Differentiated

Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA's eligibility for Differentiated Assistance.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the "All Students" student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE's Local Control Funding Formula web page at <https://www.cde.ca.gov/fg/aa/lc/>.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.
- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.
- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2021–22 .	Enter information in this box when completing the LCAP for 2022–23 . Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 . Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (**Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in *EC* Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

Projected LCFF Supplemental and/or Concentration Grants: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA's goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)

- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column
- 5. Total Planned Percentage of Improved Services
 - This percentage is the total of the Planned Percentage of Improved Services column
- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
 - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.
- 4. Total Planned Contributing Expenditures (LCFF Funds)
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)

- 7. Total Estimated Actual Expenditures for Contributing Actions
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)
- Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)
- 5. Total Planned Percentage of Improved Services (%)
 - This amount is the total of the Planned Percentage of Improved Services column
- 8. Total Estimated Actual Percentage of Improved Services (%)
 - This amount is the total of the Estimated Actual Percentage of Improved Services column
- Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

LCFF Carryover Table

- 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- 13. LCFF Carryover — Percentage (12 divided by 9)
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
