Urgent care

An urgent care need is one that requires prompt medical attention, usually within 24 or 48 hours, but is not an emergency medical condition. This can include minor injuries, backaches, earaches, sore throats, coughs, upper-respiratory symptoms, and frequent urination or a burning sensation when urinating.

Visit kp.org/getcare to find the urgent care location nearest you.

Emergency care

Emergency care is for a medical or psychiatric condition, including severe pain, that requires immediate medical attention to prevent serious jeopardy to your health.¹ Examples include chest pain or pressure, severe stomach pain that comes on suddenly, severe shortness of breath, and decrease in or loss of consciousness.

If you think you have a medical or psychiatric emergency, call **911** or go to the nearest hospital.
