

Stehly Farms Organics

We're thrilled to have added foods from Stehly Farms Organics to our fresh fruits and vegetable offerings. This farm is the latest local grower to join our Farm To School push to bring more locally sourced foods to our students!

The Stehly brothers are third-generation farmers. Their grandfather started a farm in Anaheim decades ago. As the farm grew they needed more space and made the move to Valley Center!

Brothers Noel and Jerome are passionate about their work. They are excited to get their produce out and around San Diego County. They currently provide a variety of citrus fruits, such as navel oranges and grapefruits to the DMUSD Child Nutrition Program.
