

# FARM TO SCHOOL - SUNGOLD TOMATOES

## FEATURED FARM:

The tomatoes today are purchased from Tutti Frutti Farms, a family-run business located in Central California.

A 5th generation farmer, Chris Cadwell and his family began farming on 14 acres of hillside property in Carpinteria, starting with a variety of fruit trees. They have since branched out into growing produce for the coastal communities of Southern California.

*"Sweetest tomato ever" ...*

- *More than one gardener sings the praises of Sungold Cherry Tomatoes, a hybrid golden orange cherry tomato variety.*

## DID YOU KNOW?

- Sungolds never turn red, no matter how long they stay on the vine.
- Sungolds were developed by Japanese breeder Tokita Seed Company and introduced to American and British gardeners in 1992.
