

## MUR

- Taller stage
- Live streaming
- More plugs, more tech friendly
- Flexible furnishings
- Teachers want to bring kids in more easily
- Too much light from windows over stage
- More natural light but ability to control
- Moveable walls, way to divide space for multiple groups
- K-6 capacity
- Bathrooms - students & adults
- Kitchen facility for community events, add small kitchen to be used by adults
- Better sound system
- Drop down mics for performances
- Better sound projection outside
- More square footage
- Good seat no matter where
- Built in risers on stage
- Storage for chairs etc
- Options to compartmentalize/divide room
- Projection screens to show back of room
- Climate control ac & heat
- Lighting - spotlights, lights have to be low for projection
- Better wi-fi connectivity
- Indoor - outdoor speaker system so announcements can be heard all over campus
- Replace vinyl signage
- Make lunch time more efficient
- Address wifi - make constant across campus
- Mounted projection system
- Make space more welcoming and not so industrialized
- The ability for the garage doors to open
- Ability to showcase student learning (posted)
- Keep fridge
- Better seating for children and adults
- Stage needs to be higher
- Performance lighting on stage
- Lighting on stage
- Address flooring for difference programs (PE)
- Multiple levels for building

## **COMMON LEARNING AREAS**

- More student wireless access
- Places to collaborate/sit and have Chromebooks
- Open library and tech walls reconfigure - keep books library, tech lab, book room
- Green room, tech studio to create with technology
- Quiet spaces to read
- Different zones for different purposes
- Outside eating area to incorporate with library area (indoor/outdoor learning area)
- More visibility and access from classrooms to common learning areas
- Visibility from quiet rooms and classrooms
- Benches and table workspaces - where the planters are now, for students to collaborate
- Learning patios with benches - at Ashley Falls K area
- Access to power outdoors
- Space outside MUR - more flexible options to accommodate overflow
- Space outside science lab, plumbing storage and visibility
- Better coverage for backpacks and lunches that have to be stored outside (protect food from heat etc)
- More designated common learning areas
- Outdoor areas lack seating/shade
- Identify hallways areas as CLA
- Library feels crowded - requires more openness
- Recover rooms for library
- Address computer lab layout
- Consider opening spaces up
- Consider moving tech lab
- Opening library up will allow more flexibility
- Gardens are a little sad, need some love
- Need more shade across the school
- Consider "natural" shade (trees)
- Outdoor amphitheatre space
- Trees on parts of field
- Turf needs improving
- Shade for parents at pickup
- Outdoor speaker system for teaching and office

## **LUNCH AREA AND PLAYGROUNDS**

- Filtered water system for kids
- More swings
- More handball courts - sturdy, durable
- Upper grade play structure needs replacing
- Gaga pit
- Designated space for activities or organized play
- Facilitated activities - Zumba
- Turf instead of grass - not with rubber
- Real K sandbox
- Bucketball for K
- Seesaw, tricycles
- Preschool needs grass, play areas
- Modern, appropriate play structures - new/engaging
- Better surface than blacktop (hot, too dirty)
- Central place for rainy day lunch, more shade - permanent for lunch, snack and play
- places/area/ to dig, build
- Sensory path/areas
- Building - inventor studio, wood scraps, build, hammer
- Is the play supervision area too big?
- Change the current two eating area to one eating area
- Picnic blankets or areas to eat on ground
- Curbs (tripping hazards) removal whole area outside the MUR needs resurfacing
- More permanent place to serve lunch from
- Hand washing stations near eating (or on way to)
- Swings
- Upper grade play area needs to be improved and expanded - better and climateable
- See Solana Pacific play structures for ideas
- Hand washing stations
- Turf alternative or other blacktop
- Turf needs to be addressed
- Tracks installation
- Water bottle filling stations
- Warm water in bathrooms
- More play equipment
- Coverage to bathroom when raining
- Bikes and trails for first grade

- Parking lot needs resurfacing
- Joint use for playgrounds on weekends
- Keep upper grade fitness circuit - could be moved, but retain at site
- Do not move ball walls - wall quality to be improved
- Make sure all classrooms are modernized K-6
- Dedicated storage for PTA
- More multi-use room spaces
- Upgrade staff lounges/workrooms
- Office/after school office reconfiguration
- Expand office space to include other programs
- Cinder block upgraded
